SUMMARY

Junior Front-End Developer who builds **accessible, responsive React interfaces** from designer hand-offs and scores **95+ on Lighthouse**. Comfortable owning a feature end-to-end — UI, **REST API** integration and state — and has built **full-stack RAG apps on Claude** with Python/FastAPI, so I understand the API side I integrate with. **Meta Front-End certified**; four years in quality control gave me a sharp eye for detail I now bring to clean, polished UI.

SKILLS

CORE

React

JavaScript (ES6+)

HTML5

CSS3

Responsive Design

Accessibility (a11y)

TypeScript (basics)

STYLING & UI

Tailwind CSS

Bootstrap

Figma (hand-off)

BACK-END & AI

Python

FastAPI

REST APIs

RAG / LLM (Claude)

Vector search

Java

Spring Boot

SQL / PostgreSQL

TOOLS & LEARNING

Git / GitHub

npm

Postman

VS Code

Agile

Jest

Testing Library

Next.js

PROJECTS

ShopEase — React E-Commerce Storefront

2025

Live Demo > · Source >

- Built reusable, **accessible components** (keyboard-navigable, ARIA-labeled); **95+ Lighthouse** on mobile.
- Managed global cart state with **React hooks & Context API**; instant client-side search across 20+ products.

Stack: React · JavaScript · React Router · Context API · Tailwind CSS · REST API

SkyCast — React Weather Dashboard

2025

Live Demo > · Source >

- Integrated a third-party **REST API** with debounced search, cutting redundant calls by **~70%**.
- Handled loading, empty and error states gracefully — the detail work a data-heavy dashboard needs.

Stack: React · JavaScript · Fetch API · CSS · Responsive Design

Doc Q&A Assistant — RAG with Source Citations

2026

- Full-stack **RAG** app: upload PDF/DOCX/MD and ask questions; answers grounded in the docs with **inline page citations**.
- Built the **React** UI and a **FastAPI** backend (embeddings + vector search + grounded **Claude** prompting) that replies "I don't know" instead of hallucinating.

Stack: React · Python · FastAPI · Claude · sentence-transformers · vector search · REST

Codebase Assistant — Code-Aware RAG

2026

- Ask a repository questions in plain English and get explanations that **cite exact file/line ranges**.
- Code-aware chunking on function/class boundaries for higher retrieval precision; React frontend over a FastAPI API.

Stack: React · Python · FastAPI · Claude · vector search · REST

EXPERIENCE

Quality Control Operator

2021 — 2025

Yazaki — Automotive Wire-Harness Manufacturing, Morocco

- Inspected high-volume production lines for conformity and defects under strict automotive quality standards.
- Logged and analyzed quality metrics under tight cycle times — the eye for detail now applied to code review and testing.

EDUCATION

Specialized Technician in Software Development

2024 — 2026

IPIAB — Kénitra, Morocco

Web development, databases, OOP and information systems.

High School Diploma (Baccalaureate)

2019

Morocco

CERTIFICATIONS

Meta Front-End Development — Coursera, 2026 · [verify >](#)

LANGUAGES

Arabic Native · English Fluent (C1) · French Intermediate (B1)

STRENGTHS

Rigorous & detail-oriented · Problem-solving · Team collaboration · Fast learner · Autonomy & ownership
